

ACTRA Opposition to Rule Change Petition: Mandatory Rest Period for Quarter Horses, Standardbreds and Thoroughbreds

ACTRA feels that this rule would not be beneficial to horse racing due to the following reasons:

- not enough horses to fill the race card if this rule is put in place (we already have a horse shortage)
- we have race day vet checks to eliminate unsound horses from racing
- the trainer(s) knows their horses and some run better the second race day
- we will end up with a loss of owners and trainers

The owners and trainers along with the veterinarian should be making these decisions

Sincerely,

Lynette Braun
